

Visiting the Sunnyside School

After the final exam,
Grandmont News Team visited
Haven of Hope Sunnyside School
靈實恩光學校 in Tseung Kwan O.

The school's teachers and
headmaster were very nice. They
took us to walk around the school.
Their school was smaller than
ours but there were some special
rooms. Their students could learn
many things, such as maths and
buying things.

Then we made vases with the
students there. I thought they
were clever because they could
paint the vases beautifully by
themselves. I had a good time
there.

↑ We looked at their special piano and their gifts.

Grandmont News
Team reporters also
interviewed the
headmaster.

We asked the
headmaster many
questions. He was
nice and patient, so
he shared a lot with
us.

He told us, 'A
student asked me to
give him an old computer last year. Then I
called my friends to find an old computer
for him. My student was very happy!' We
thought that was very interesting, so we
laughed a lot.
